**DECLARATION OF MIKAEL NILSSON  
PURSUANT TO 37 C.F.R §1.131**

Dear Examiner:

I, Mikael Nilsson, state that I am one of the applicants in the above-captioned application and one of the inventors of the subject matter claimed therein. Prior to May 29, 2001, we conceived of the invention and coupled with due diligence from the date of conception to the filing of the application the following occurred:

1. The invention was conceived in **October 2000**. At the time of the invention, I owed a duty of assignment of the invention to Ericsson, Inc. (hereinafter "Ericsson").
2. After I conceived of the invention, my co-inventors Simone Fischer-Hübner and Helena Lindskog presented a Position Paper at the "WAP W3C Mobile Web Privacy Workshop" **December 7-8 2000** in Munich, Germany, and it was submitted on **November 6 2000**. The Position Paper included the inventive aspects of our invention

and was published at this workshop. Subsequent to the workshop, **March 8, 2001**, I submitted a description of the invention to the appropriate Ericsson patent review committee for purposes of obtaining approval to file a patent application for the invention. A copy of my invention disclosure is attached hereto as Exhibit A.

3. To the best of my knowledge, the Ericsson patent review committee followed its standard procedures in reviewing and subsequently approving of the filing of a patent application.

4. On **June 15, 2001**, a description of the invention disclosure was forwarded to the Law offices of Jenkins and Gilchrist for preparation of a patent application. A copy of a transmittal letter authorizing preparation of the patent application is attached hereto as Exhibit B.

5. On **August 14, 2001**, I was forwarded a final complete draft of a patent application for our review and execution. A copy of the transmittal letter sending the draft to for review is attached hereto as Exhibit C.

6. I executed the above-captioned patent application on **October 21, 2001**, (see, my signed declaration filed with the application), and the application was filed on August 23, 2001 (see, filing receipt for the application).

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Declarant

  
MIKAEL NILSSON
